

# Siri<sup>TM</sup> Smart Irrigation Nano

## Motor Scheduler & Digital Starter

- ✓ Automatic motor ON/OFF
- ✓ High & low voltage cut-off
- ✓ Dry-run protection
- ✓ 7 Day timing scheduler
- ✓ Single / Three phase motors, 0.5 to 25 HP
- ✓ LCD display for program setting
- ✓ LED indicators – Three phase, Motor & Controller Status

## Smart Irrigation

## Drip / Greenhouse Automation Controllers

- ✓ 4 / 8 / 16 Valve control
- ✓ 2 Pump Motors & Filter control
- ✓ Upto 5 Tank Fertigation
- ✓ Motor Safety Protection
- ✓ Timer / Volume / Sensor based

- ✓ Temperature / Humidity / Soil Moisture / Soil Temperature / Rain Sensors
- ✓ Digital Water & Ferti Meters
- ✓ Greenhouse – Heater, Cooler/Fan, Climate control & Light Control
- ✓ GSM mobile / Wireless Sensors / Valves

## Smart Irrigation

## IoT – Web App / Mobile App Controllers

- ✓ Remote control and monitor of irrigation/fertigation/fogging
- ✓ History of Irrigation/Fertigation in a graphical display
- ✓ Data analytics
- ✓ Upto 128 Zone / Channel control
- ✓ Upto 1 KM Wireless sensors - Temperature / Humidity / Soil Moisture / Soil Temperature / Rain Sensors
- ✓ Web App / Mobile App
- ✓ 3G / Cloud Server

## Smart Irrigation

### Siri – Smart Nutrigator

- Timer based Injection
- 1 to 3 Venturi Injectors, 150-350 LPH
- Expandable upto 5 tank
- Main line pressure upto 4 bars
- Stainless-steel Booster Pump
- Low/High voltage cut-off
- Dry-run protection
- GSM based Control
- Daily/Weekly/Alternative day selection
- Individual Flow Meter for each Injector
- EC / pH Monitor
- 8 station Irrigation Controller
